Figure 10 was incomplete in the print version. The correct figure appears below:

Fig. 10. Mean seasonality of atmospheric MS at Kohnen (a) and Neumayer (b). For Kohnen, the results from three additional summer campaigns were displayed by grey squares [error bars represent the standard deviation of the corresponding time series (Piel et al., 2006)]. The data from Neumayer (with standard deviation) comprise 22 yr of continuous observation (1983–2005).
