

Editor's note

We wish to inform our readers that volume 18, number 2, of **TELLUS** will be considerably enlarged to contain exclusively the whole proceedings of the CACR Symposium on Atmospheric Chemistry, Circulation and Aerosols, presented at Visby, Sweden, on August 18–25th, 1965. The price of this special issue will be US \$8.00 to non-subscribers of **TELLUS**. No extra charge will be made to subscribers who will automatically receive this issue. Normally number 2 of **TELLUS** appears in May, but unfortunately, owing to considerable delays in collecting such large numbers of corrected manuscripts from all parts of the globe, it will be from one to two months late this year.
