

ERRATUM

Emanated products as a probe of atmospheric transport

By G. ASSAF, *Isotope Department, The Weizmann Institute of Science, Rehovot, Israel*

(Manuscript received June 13, 1972)

Some misprints have unfortunately occurred in the article by Assaf, vol. 21: 6, as follows:
Eq. 1 on page 820 should read

$$q^*(l) = \int_{-\infty}^{\infty} q(x) q(x+l) dx / \int_{-\infty}^{\infty} [q(x)]^2 dx$$

The solution of the diffusion equation on page

823 should be

$$q = q_0 \exp \left(\frac{\lambda}{Ka} \right)^{\frac{1}{2}} z$$

Also, the separation parameter, l , has been interchanged with ι .
