

Editorial – Abstract Supplement: 2nd International Conference on Tropical Dermatology 2026

The 2nd International Conference on Tropical Dermatology (ICTD), which was held from 11th to 14th March 2026, brought together dermatologists, researchers, and trainees from multiple countries to share advances in tropical dermatology and related fields. It was organized jointly by the Sri Lanka College of Dermatology and Aesthetic Medicine (SLCDA) and the German Dermatological Society (DDG). The scientific programme included oral presentations and electronic posters covering a wide range of clinical and research topics in the area of tropical dermatology.

This supplement of the *Sri Lanka Journal of Dermatology* contains the abstracts of free papers and e-posters presented at the conference. The abstracts were reviewed by the ICTD Scientific Committee before acceptance for presentation.

The editors hope that this compilation will serve as a useful record of the scientific contributions presented at ICTD and will encourage further research and collaboration in tropical dermatology.
